## 2002 Premier 1

RB-29 • N110PR

**CALL FOR PRICE !**  
**1-866-924-7232**

### WHY BUY THIS MAKE /MODEL

To get ahead in today's business world, you have to be smarter, faster and more efficient than your competition. One of the best ways to do that is to put your company in a Premier I. Equipped with two Williams FJ 44-2A turboprop engines each delivering 2300 lbs of thrust and top speed of over 500 miles per hour and a maximum range of over 1,400 nautical miles, a Premier I will put you and your company ahead - and keep you there.

Plus, you travel without the constraints and limitations faced by those relying on the scheduled airlines. With your Premier I at your disposal, you can travel in comfort and save time - not just because of the spacious, quiet cabin, but freedom from long airport lines and security checks as well. Time and location become practically meaningless. You can now take your business directly to where the opportunities are.

### SPECIAL FEATURES

If you are a business owner having more that one employee travel to the same destination numerous times a year on the West coast, then this is your cost savings solution!
